Professional Experience

Université Mohammed VI Polytechnique (UM6P) – I&E LAB

Jul – Aug 2025

Strategy & Business Development Intern

Benguerir, Morocco

- Conducted structured client discovery and market validation interviews to define project scope and prioritize high-impact use cases for a tech venture.
- Performed competitive landscape analysis and assessed market sizing to stress-test business model assumptions and validate go-to-market hypotheses.
- Evaluated operational and organizational dimensions to support MVP development under bootstrapping constraints, mapping resource allocation scenarios.
- Synthesized findings into structured mission reports including ROI estimation frameworks and strategic recommendations for senior stakeholders.
- Produced investor-ready pitch decks and commercial proposals tailored for partner institutions and potential funding sources.

ALX Ventures

Sep – Dec 2025

Representative & Coordinator – Entrepreneurship Club

Casablanca, Morocco

- Designed and facilitated workshops on entrepreneurship and venture creation, translating complex frameworks for student audiences.
- Sourced and onboarded industry experts and strategic speakers to strengthen the club's thought-leadership positioning.
- Built and monitored event budgets and P&L forecasts, ensuring cost control and financial accountability across multiple activations.
- Led end-to-end organisation of hackathons and conferences, managing logistics, communications, and post-event performance analysis.
- Promoted the Founder Academy programme across academic institutions, driving recruitment pipeline and stakeholder engagement.

SOCCHIER – Sport-Tech Startup

Founder

Mar 2025 – Present

Morocco

- Built a comprehensive business plan including financial modelling, P&L, cash flow forecasts, break-even analysis, and ROI projections to support fundraising discussions.
- Selected among the top 300 startups at GITEX 2026 by Morocco’s Ministry of Digital Transition.
- Deployed a functional MVP using generative AI tooling to rapidly test implementation scenarios and iterate on product-market fit hypotheses.
- Structured and delivered commercial and strategic proposals to venture capital partners, demonstrating investor communication and fundraising skills.
- Mapped customer journey data and conducted cohort analysis to identify conversion bottlenecks and optimize unit economics including CAC, LTV, and ROAS.
